NADI PARIKSHA SYSTEM

The pulse of progress

A breakthrough from Atreya Innovations

At Atreya Innovations, we've made it our mission to bring modern technology and ancient Ayurveda together. Our objective is to give Ayurveda the scientific validation that it so richly deserves. Based out of Pune, we collaborate with renowned Vaidyas and other experts from around India for our research and development. Nadi Tarangini is the first big step in our journey.

PATENT PENDING

Nadi Pariksha's ancient wisdom Re-engineered for a modern practice

To grow your practice in this competitive age, you need the latest technology and scientific advances. Winning the trust of patients and retaining them has never been more difficult. Nadi Tarangini is a breakthrough that addresses these issues, and helps you to recommend evidence-based treatment that results in increased patient confidence. It is the convenient, new-age way to perform Nadi Pariksha.

Nadi Tarangini has been validated with data patterns from over 25,000 patients.

Helps your practice progress in many ways

Nadi Tarangini is an invaluable aid for the modern practitioner. It helps bring a new dimension to your practice, build positive word-of-mouth and obtain more referrals.

Authentic Nadi Pariksha made easy

Nadi Tarangini mimics the way you perform traditional Nadi Pariksha, while a comprehensive Nadi Report enables an accurate conclusion. Seeing the Nadi patterns on screen makes it increasingly simple to perform the test.

Patient Confidence

Boost patient confidence right from the start, by providing objective support to your conclusions.

Progress Tracking

Tackle the problem of patient retention with clear evidence of your treatment's effectiveness over time.

Dynamic Patient Management Software

Manage your practice with ease, refer to records, schedule appointments and more. Fully customizable, with unlimited storage.

Hardware designed with you in mind

Perfected over 13 years, Nadi Tarangini's intuitive and contemporary design, together with its cutting-edge components, makes the process of capturing Nadi patterns easy, effortless and highly accurate.

Doctor's Unit

Designed with three pressure sensors to mimic the way you would perform Nadi Pariksha manually.

Patient's Unit

Designed for optimal sensing and recording of the Nadi signals.

Air Gap

Improves sensitivity, giving you more detail and accuracy.

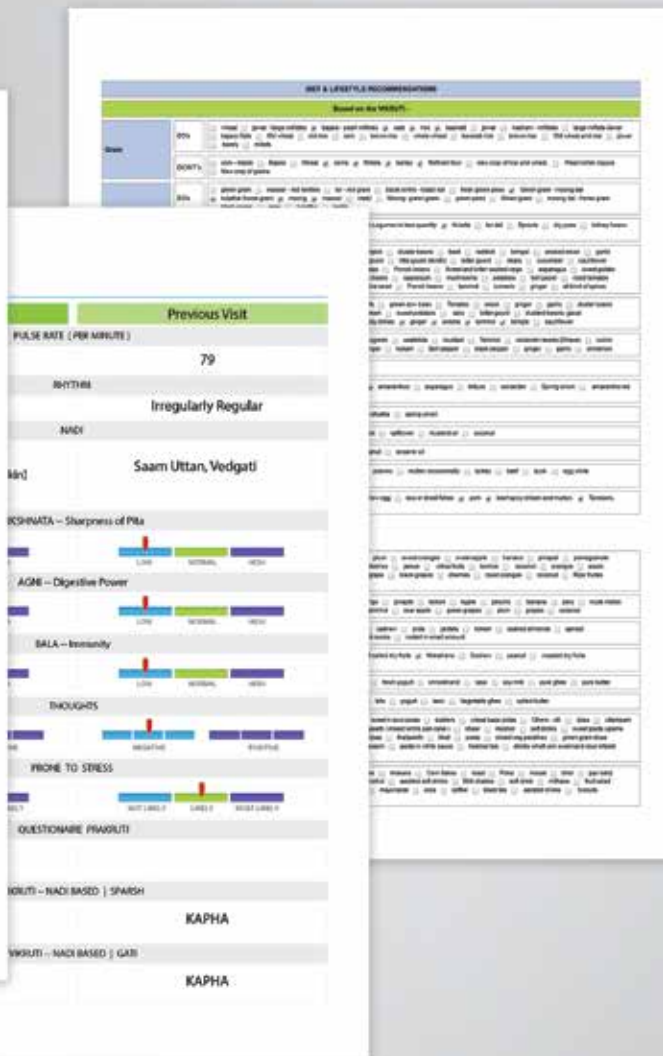

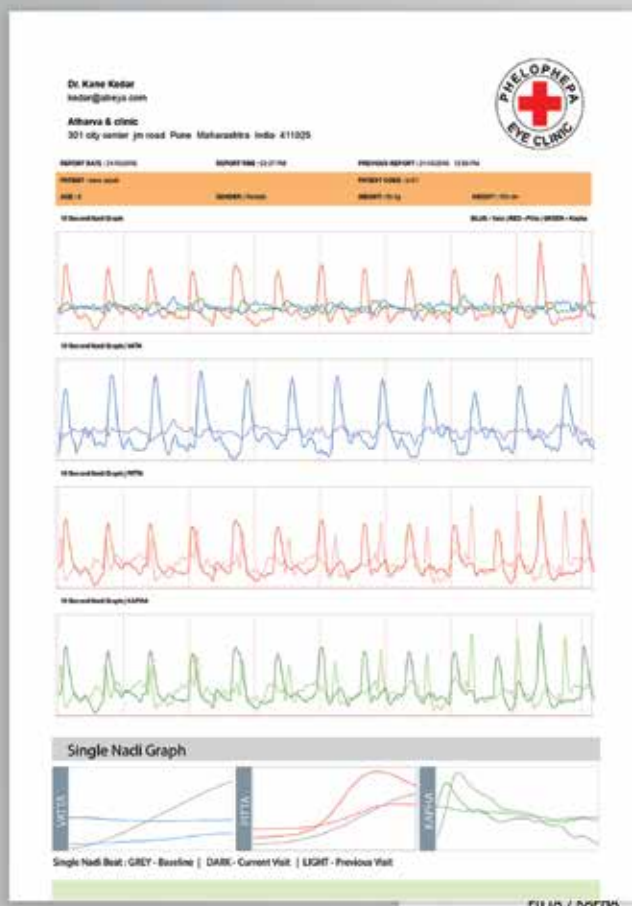

Flexible Cable

Allows you to capture the patient's Nadi in whichever position you are comfortable.

Ancient wisdom, powered by futuristic intelligence

Nadi Tarangini's ultra-sensitive sensors and advanced software give you precise Nadi patterns and a high degree of accuracy.

Padma Shri Vd. Rajesh Kotecha

Chief Consultant, Chakrapani Ayurveda,
Former Vice Chancellor, Gujarat Ayurved University

"I came to know recently that there is finally a device based on the Indian science of Ayurveda made by an Indian scientist - Dr. Aniruddha Joshi. His efforts over the past several years have culminated in Nadi Tarangini – a scientific Nadi Pariksha system (hardware + software) based on thorough validation process of computer science. It sounds like it is not only a powerful diagnostic support for Vaidyas but it can also help enhance patient satisfaction and belief in Ayurveda. I want to compliment Dr. Joshi and his team for this endeavour which has great potential to be the first indigenously developed Nadi Yantra."

Prof. Vd. G.G. Gangadharan

Director - MSR ICAIM, Bengaluru

"Nadi Pariksha is a medieval practice in Ayurveda which is being practiced only by select experienced physicians. If this highly subjective diagnostic tool can be translated into technological format, it will be a very useful, adaptable and objective diagnostic support for practising physicians. Nadi Tarangini is a right step in this direction."

Padma Shri Dr. H. R. Nagendra

President, S-VYASA Yoga University, Bengaluru

"Nadi Tarangini can be a great 'Make in India' product. For the first time, the subjective knowledge of Nadi Pariksha has been converted into objective, quantitative and measurable data. This instrument with standardized data can be a revolution in Ayurveda diagnosis. I congratulate Dr. Aniruddha for this wonderful work which is the need of the hour."

Dr. Vishi Bansal

Product Development Manager, Naturals
Unilever R&D, Mumbai

“Nadi Pariksha is one of the unique diagnostic methods used by Ayurveda. It is gradually getting lost due to the skepticism of scientists, owing to its subjectivity. I have seen many attempts to make this examination objective and Nadi Tarangini is by far the closest to the way a Vaidya examines the pulse of a patient. It is quite accurate, reproducible and user-friendly, thereby making it a must-have instrument for a modern Ayurvedic practitioner.”

Prof. Vd. Eknath Kulkarni

Associate Professor, Ayurved Mahavidyalaya, Nashik

“Nadi Tarangini is very useful for all Ayurvedic practitioners. Every Vaidya should use it. Ayurveda must be supplemented by modern equipment and technology like Nadi Tarangini. It is an innovative instrument that will be useful for Ayurvedic research also.”

Vd. Amit Rathi

President, Healthy Lifestyle Foundation
Director, Holistic Yoga Pvt. Ltd.

“Nadi Tarangini's system is a revolution that will transform the invisible, experiential knowledge of Nadi Pariksha into a visible format. This is the future of Nadi Pariksha for which the world of Ayurveda will always be grateful! Best wishes to Dr. Aniruddha Joshi and his team in this revolutionary endeavour.”

Progress of Ayurveda

Every form of medical analysis and treatment has its breakthrough moments. The invention of the ECG revolutionized diagnosis in cardiology, while the discovery of antibiotics did the same for treatment. Nadi Tarangini shows all the potential to be such a significant step forward.

For the first time ever, Ayurveda has its very own technology specifically based on Ayurvedic principles, to ensure greater accuracy and objectivity. This will lead to increased patient confidence and wider acceptance.

Training students made easier

Nadi patterns have been graphically represented, making them easier to understand.

Research and case study presentations

Nadi Tarangini provides evidence, crucial for scientific credibility and acceptance.

There are many ways to perform Nadi Pariksha, and many different interpretations possible. The need of the hour is to consolidate these varied practices and their learnings.

We invite doctors to collaborate with us for the progress of Ayurveda.
